

# PURENN

Purenn is a company that specializes in producing natural and eco-friendly cleaning products. Our focus is on providing effective, safe, and environmentally sustainable alternatives to conventional household cleaning solutions. Purenn products are made from plant-based ingredients, are free from harmful chemicals, and are designed to minimize environmental impact. Purenn cater to consumers who are mindful of their health and the environment, offering a range of cleaning products that are biodegradable, cruelty-free, and packaged in eco-friendly materials.

## Product

Our eco-friendly product categories includes:

Household Cleaners, Laundry Products, Dishwashing Solutions, Personal Care: Natural hand soaps.

## Looking from Azerbaijan

Establish partnerships with distributors and retail chain stores to expand Purenn's presence in the region. Our goal is to identify reliable distributors who can help us enter the local market, and connect with key chain stores

## About Us

**SAL Group is a provider of solar panel and fiber optic cable installation services across Germany. With over 5 years of experience in the renewable energy market, we have successfully helped residential, commercial, and industrial clients reduce their carbon footprint and energy costs.**

**Our mission is to deliver high-quality, sustainable, and efficient solar energy solutions that contribute to a greener future. We pride ourselves on offering top customer service, expert consultation, and reliable installations using the latest technology in solar energy systems.**

## Fiber Optic Cable Installation Across Germany

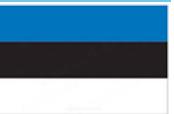

**Fast, Reliable, and Future-Proof Connections.**

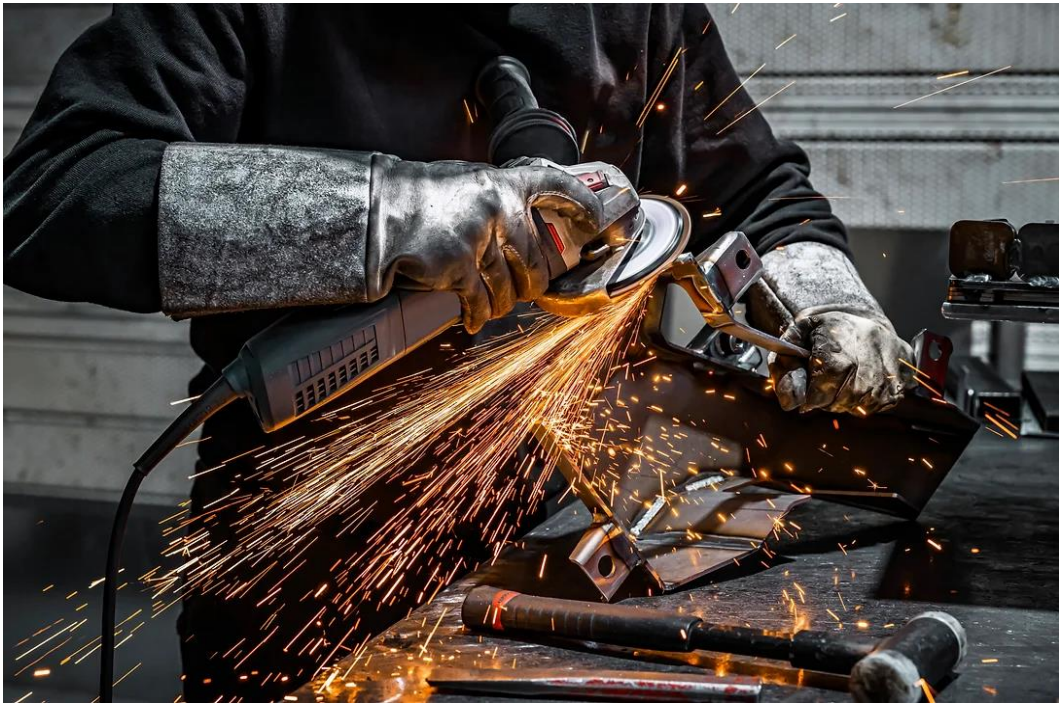

**We specialize in high-quality fiber optic cable installation services across Germany.**

**Our expert team provides fast, efficient, and secure solutions for businesses, homes, and commercial properties, ensuring high-speed internet and reliable data transmission.**

**Our Services Include:**

- **Professional installation of fiber optic cables for residential, commercial, and industrial properties**
- **Customized solutions tailored to your specific needs**
- **Efficient and safe installation processes**

**The SAL Group was established to assist industrial companies in the recruitment process and staff renting. The founders and partners bring extensive experience in both the industrial sector and workforce management.**

**The objective of SAL Group staff renting services is to help customers find best specialists for industrial companies with competitive rates and with less staff management tasks. Our team puts our customers interests first, we are focusing on professional staff management, which in turn saves time and raises the value of customer business.**

# FINLAND NEEDS YOU

Kuvio 2. Toisen asteen opiskelijoiden ikäluokkakehitys vuosina 2019–2070. (Lähde: Tilastokeskus 2019.)

Currently, the estimated need for foreign talent in Finland is 60.000 people per year (Ministry of Finance 2022)

Finland, just like its relatives Sweden, Norway, and Estonia, has historically struggled in attracting and retaining talents largely due to issues in immigration, integration, and language.

Currently Finland has more than 22.000 open seats in secondary education alone that are not filled by Finnish students due to lack of student population. The situation will only get worse starting from 2024 when we start seeing a drastic drop in student numbers. (2022)

# Reasons to choose Finland

## EDUCATION

Finland has one of the best education systems in the world - and it is tuition free!

## FREEDOM

Freedom and democracy are the beating heart of Finland. Here you can shape your own future.

## SAFETY

Finland has very low level of corruption and crime rate is also one of the lowest in the world.

## CLEANLINESS

WHO ranks air quality in Finland best in the world. UNICEF ranks Finland's lakes purest in the world.

## EQUALITY

Equality makes Finland one of the most civilized countries in the world.

## HAPPIEST

In 2023, for the 6th time in a row Finland has been ranked as the happiest country in the world.

## Entering the Best High Schools on the Planet

Finland is widely regarded to have the best educational system on the planet. Finland's students have access to the highest educational standards for free. Many international students have been able to experience the amazing higher education Finland has to offer.

By first learning the **Finnish language up to B1.1-level**, you can to apply to any High School in Finland. We help you to identify just the right school for you, based on your needs and eligibility.

### Why Should We Choose Finland?

The world's safest country

The happiest nation for 5 years in a row

The fourth most creative country

Having the second highest academic performance

Free education up to the doctoral degree

# High-School

Studying at Amis is a unique experience that prepares the necessary foundation for entering the job market

## Benefits of the Amis course

- ✓ No age limit, educational qualification or work experience
- ✓ Permission to work up to 30 hours a week while on course
- ✓ Possibility of family immigration with spouse and children under 18 years of age
- ✓ The duration of the training course is usually between 2 and 4 years.
- ✓ Possibility of specialized work with a specialized degree

The graphic features a map of Finland with regional labels: LAPPI (Ivalo, Muonio, Kolari, Kellosele, Kemijärvi, Rovaniemi, Tornio, Kemi, Taivalkoski, Oulu, Raahel, Kajaani, Ylivieska, Lisalmi, Vaasa, Seinäjoki, Kaskinen, Parkano, Virrat, Jyväskylä, Äänekoski, Kuopio, Varkaus, Pieksämäki, Joensuu, Pohjois-Karjala, Iloanta, Mikkeli, Savonlinna, Imatra, Turku, Pori, Rauma, Hämeenlinna, Lahti, Kouvola, Mikkeli, Imatra, Lappeenranta, Ahvenanmaa, Uusimaa, Helsinki, Salo, Vaalimaa, Hyvinkää, Forssa, Turku, Uusikaupunki, Marjamaa, and Hanko).

Below the map is the Finnish flag (a white cross on a blue field) with the text "FINLAND MAP" underneath.

There are two placeholder sections, each with the text "LOREM IPSUM". The first section includes a line graph with three data series on a grid. The second section includes a horizontal bar chart with three bars of varying lengths, each with a diagonal hatching pattern on the left side.

# FinlandQ Where Startups, Investors, and Talents from Developing Countries, Unite for Global Success.

Startups and talents in developing countries face with limited access to crucial resources, enduring systemic barriers such as gender inequality and racial biases. These barriers limit their potential, impeding both local economic growth and the enrichment of the global innovation ecosystem.

## Why Finlandq?

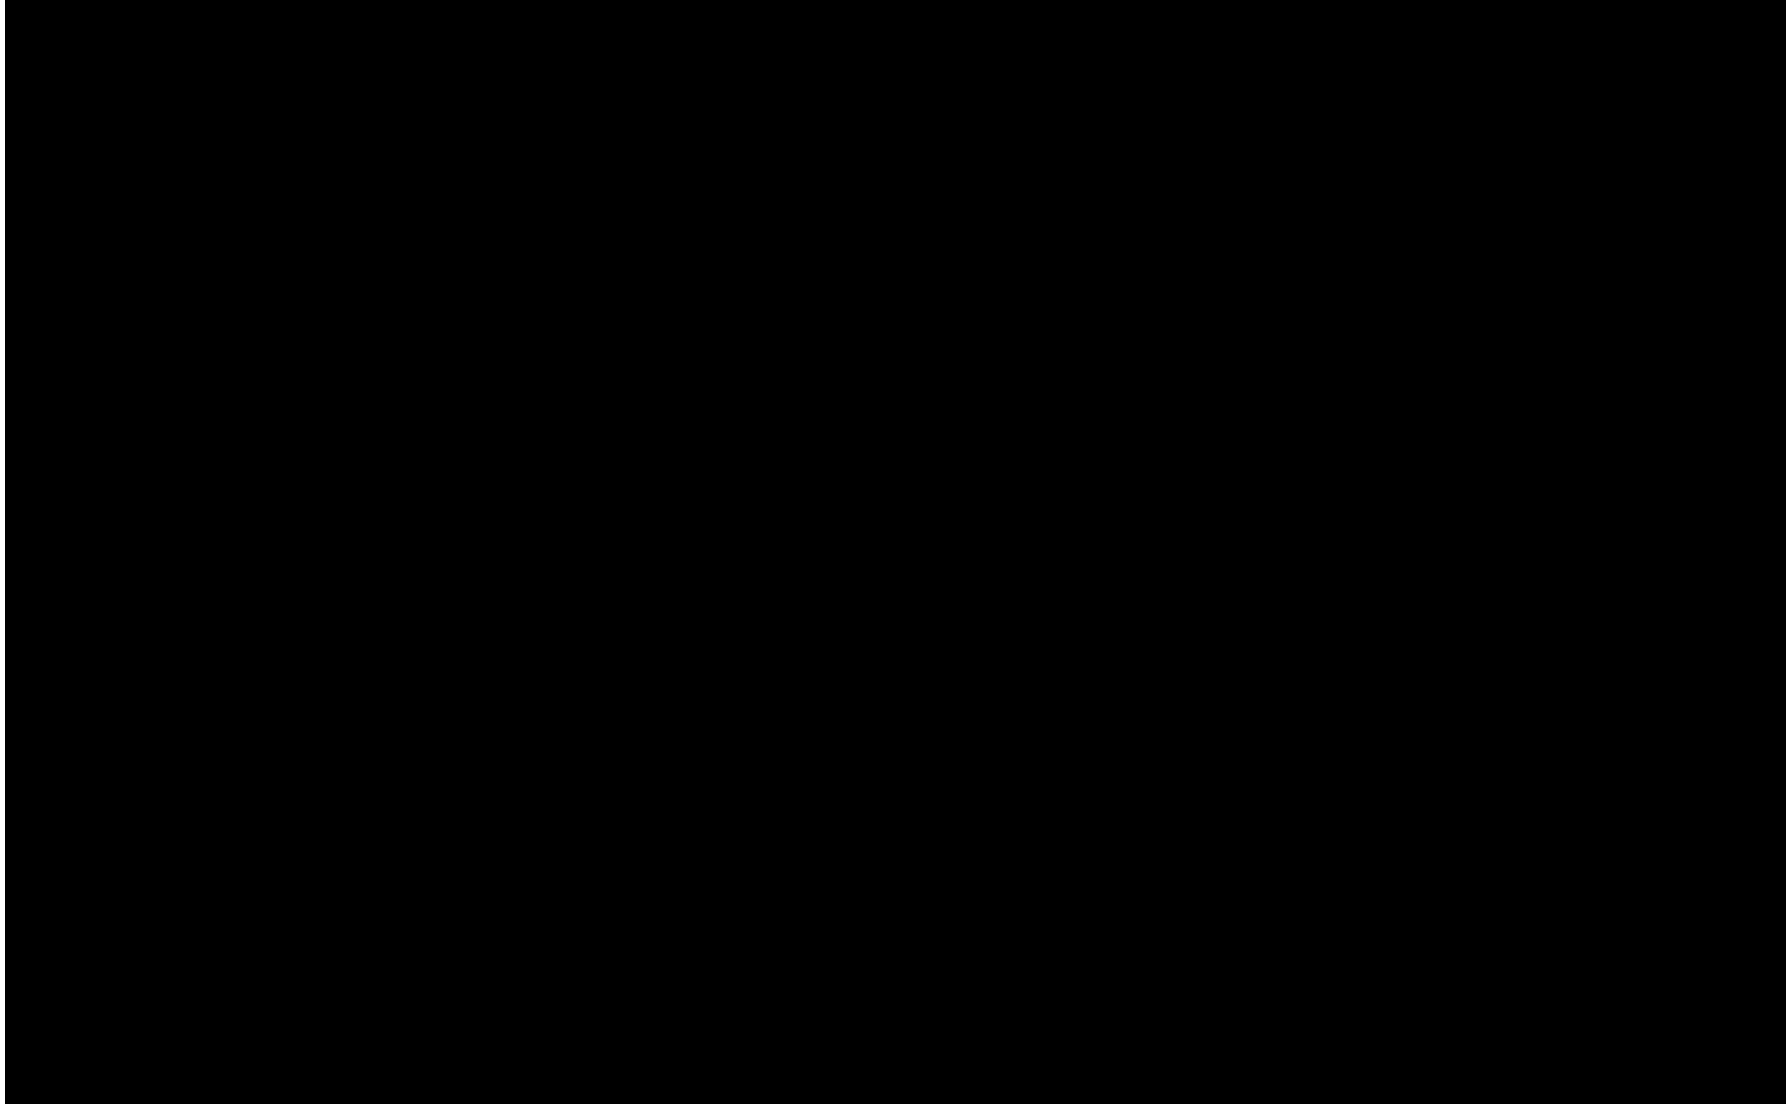

Finlandq is a pioneering ecosystem dedicated to connecting startups, investors, and top-tier talents from developing countries to the global market. Our mission is to foster global growth, innovation, and collaboration.

## Our Vision

### Building Bridges to Global Opportunities

At Finlandq, we believe in creating a world where geographical boundaries do not limit innovation and growth. Whether you're a startup looking to scale, an investor seeking impactful ventures, or a talent aiming to join the next big success, Finlandq is your gateway to unparalleled opportunities.
